w. FISC Norfolk does not handle or store class A, B or C explosives with the exception of OA and 8A cog and classified class "C" explosives which are handled by the Special Material Supply Department, Building X-137. Procedures for ordnance support are in Subject Group 8000 of this manual.

4460.2 Material Left on the Pier. Stores/Supplies/Retrograde/or other unidentifiable turn-in material left on the pier. DDNV Norfolk has established a single point of contact for assistance in providing guidance on material disposition, turn-in, and transportation requests concerning stores, supplies, retrograde, or other turn-in materials left on the piers. Contact Material Turned into Stores (MTIS) Supervisor or the Receiving Director for assistance.

FISC Norfolk Customer Service Center, Building W-143, will provide guidance and respond to questions on any type of material requiring turn-in pier-side vessels.
